PREFABRICATED EXTERIOR PANEL SYSTEMS

Fedderlite® / Metalite® / Outsulite® Panelization Systems
Get Complete Control Over Schedules and Quality with Dryvit Panelized Wall Systems

Whether you’re building new or renovating, Dryvit prefabricated panel systems offer unique advantages over traditional field-applied construction.

Since 1970, Dryvit has offered systems and technical support for the prefabrication space using all of the Dryvit product. Dryvit panelization systems incorporate all the benefits of an Outsulation® system — including continuous insulation (CI) and beautiful aesthetic finish options to meet any design need — all fully-tested to meet existing building codes and provide extraordinary energy efficiency. Dryvit panelization systems also offer the most experienced and deepest team of partner fabricators in the industry.

Why Build with Dryvit Prefabricated Panels?

Speed construction or restoration. Simplify installation. Extend the construction season. A structure built with a Dryvit prefabricated panel system means more for everyone — more satisfied contractors, more comfortable occupants or tenants, and more efficient structures and cost-effective operation for owners.

- **Faster Construction Time**
  In-plant fabrication can reduce production time, and speed up field application of exterior cladding systems, to reduce construction schedules.

- **Any Look You Want**
  A wide range of colors and finishes like brick, granite, metals, stucco and more provide maximum flexibility in your façade aesthetic.

- **Stronger and More Resilient**
  Our systems are designed for maximum durability, many with service lives far surpassing that of competing systems.

- **Avoid Labor Shortage Problems**
  Pre-fabricated Dryvit panels can help address ongoing shortages in the skilled labor force — while simultaneously maximizing quality control.

- **Cost Effective for the Long Term**
  A broad range of products can fit most project budgets — but our energy-efficiency and maintenance solutions can also help you ensure cost-effective ownership and operation for the long term.

- **Better Insulated**
  Industry-leading Outsulation® continuous insulation means efficient construction and operation, and will exceed strict energy codes for insulation.

- **One Point of Contact**
  Our products and systems are backed by industry-leading warranties — all from a single point of contact. We can also help with everything from asset management to diagnostics to installer training.

- **Leading Edge Sustainability**

** Outsulite and Fedderlite
*** Outsulite and Fedderlite
Fedderlite® is a lightweight panel system for use in new construction or retrofit over solid substrates. This panel utilizes a unique process for embedding reinforcing channels into the continuous insulation to provide a means for handling, as well as mechanical attachment to the wall. Fedderlite panels may be adhered or mechanically fastened to approved substrates.

**Features & Benefits**

- Ultra-Lightweight [2.5 lb/ft²] construction for easier handling and on-site installation
- Panels must be attached to a smooth, solid substrate for streamlined installation
- Unique, embedded reinforcing channels provide strength and enhanced handling

**System Components**

1. Fedderlite Channels
2. Expanded Polystyrene (EPS)
3. Reinforcing Mesh *(Embedded in Base Coat)*
4. Base Coat
5. Finish Coat *(Shown: Reflectit™ Smooth. See pg. 8)*

Sandpebble fine finish, in a custom color

Custom red Reflectit finish, over Sandpebble fine
Metalite® is a prefabricated panel system utilizing a Dryvit Outsulation® system over a specially designed, proprietary light-gauge metal pan.

Metalite is ideally suited for pre-engineered metal buildings, warehouses and manufacturing facilities, in addition to mechanical screens and retrofit construction applications.

The pan and panel system are mechanically fastened.

Features & Benefits

- Outsulation system over a specially-designed, light-gauge metal frame and proprietary metal pan
- Lightweight, at only 4.5 lb/ft²
- Ideal for pre-engineered metal buildings, screen walls, and over irregular surfaces
- Proprietary, industry-unique system

System Components

1. Metalite Decking
2. Expanded Polystyrene (EPS)
3. Mechanical Fasteners
4. Reinforcing Mesh (Embedded in Base Coat)
5. Base Coat
6. Finish Coat (Shown: Ameristone™. See pg. 8)
The most versatile Dryvit panel system, Outsulite® provides the strength and ability to configure to any panel shape, and are designed in accordance with current AISI Standards and manufacturer load tables. Deflections are limited to L/240. Stud, sheathing and building connections are engineered by panel fabricators to conform with building code design load requirements.

At 8 lb/ft², Outsulite panels are a lightweight alternative to conventional systems, providing a single structural system for supporting the exterior cladding, window systems and other accessories.

Product Overview

Features & Benefits

- Maximum insulation in a single structural system for supporting cladding, window systems and more
- Perfect for tight job sites
- Single structural system for supporting cladding, fenestration systems and more

System Components

1. Light-Gauge Steel Framing [By Others]
2. Acceptable Sheathing [By Others]
3. Backstop® Air/Water-Resistive Barrier
4. Expanded Polystyrene (EPS) w/ Dryvit Adhesive
5. Reinforcing Mesh [Embedded in Base Coat]
6. Base Coat
7. Finish Coat [Shown: TerraNeo®, See pg. 8]
Now part of the Tremco Construction Products Group

Dryvit is now part of the Tremco Construction Products Group (CPG). Tremco CPG brings together Tremco Incorporated’s Commercial Sealants & Waterproofing and Roofing & Building Maintenance operating divisions; Dryvit Systems, Inc.; Nudura Inc.; Willseal; Weatherproofing Technologies, Inc. and Weatherproofing Technologies Canada, Inc.

Products from across the Tremco CPG companies’ lines are designed for maximum waterproofing, thermal, sound, and air-tightness, and systems are rigorously tested for performance and compatibility at our one-of-a-kind building science laboratory.

Look to Tremco CPG for:

- Dryvit and Tremco Flashing, and Air and Vapor Barrier Systems
- Willseal Pre-Compressed Foam Expansion Joint Products
- Tremco Sealants, Adhesives and Transition Assemblies
- Nudura Insulated Concrete Form (ICF) Systems

The Industry’s Premier National Partner Fabricator Network

Not only is Dryvit the most experienced EIFS manufacturer, we’ve also been at the forefront of the EIFS panelization business since the early 1970s. Our innovative products, panel systems and Partner Fabricator Network continues to grow everyday.

The Dryvit Partner Fabricator Network is capable of assisting you anywhere in the United States.

For info on the fabricator nearest you, contact our panelization team at 1-800-556-7752, ext. 9.
FINISH & COLOR OPTIONS

We all want our buildings to stand out and be noticed. That’s why Dryvit manufactures a wide array of finishes that replicate everything from brick, to stone, to granite, to metal panels and more. Use them alone or in any combination to create the exact exterior you want, at a fraction of the weight — and cost — of the traditional materials.

And, when you factor in the enormous palette of color and detail options for each finish, your design options are all but limitless.

DRYVIT® FINISH OPTIONS | Choose from unlimited color and finish combinations!

- AMERISTONE™
- FERROS™
- LYMESTONE™
- QUARTZPUTZ®
- STONE MIST
- REFLECTIT™ TEXTURE
- CUSTOM BRICK™
- SANDPEBBLE™
- TERRANE®
- REFLECTIT™ SMOOTH
- NEWBRICK™
- TUSCAN GLAZE™
